Why Zyro Books

Zyro Books is built for companies that trade across borders. Instead of forcing one set of rules onto every market, we embed local tax engines, multi-currency accounting and AI search so finance teams stay compliant and productive.

AI Payment Search	Multi-Currency Ledger	Native Tax Engines
Search any transaction in plain English. Find payments, invoices or customers instantly without complex filters.	Record in PKR, AED, SAR, GBP, INR or USD. Automatic FX gain/loss and real-time conversion rates.	Built-in rules for FBR, HMRC MTD, FTA VAT, ZATCA Phase 2, GST and US multi-state sales tax.
Inventory & Manufacturing	Statutory Payroll	Banking & Reconciliation
Weighted-average costing, BOMs, work orders, multi-warehouse tracking and reorder alerts linked to the ledger.	Pakistan tax slabs, EOBI, gratuity and payslip generation. Multi-country statutory support in one system.	CSV import, smart matching and multi-currency bank support. Open Banking feeds coming soon.

Supported Jurisdictions

Pakistan (FBR) Sales tax, income tax, EOBI, gratuity, QR invoices	United Kingdom (HMRC) Making Tax Digital ready, VAT 100 returns
UAE (FTA) & Saudi Arabia (ZATCA) VAT rules, Phase 2 e-invoicing, Arabic support	India (GST) & United States GSTIN/HSN, CGST/SGST/IGST, multi-state nexus
